satisfaction

Ai-Kiosk is a self-service menu that takes your customers' orders and payments. Affordable, fast and flexible, Ai-Kiosk increases sales, productivity and customer satisfaction from the get-go.

HOW IT WORKS

1 Ai-Kiosk is set up with your menu options and images.

2 Customers use the kiosk to order and pay.

3 Orders print directly to your service counter in seconds.

Ai-Kiosk is a first-class experience.

Offering fast, responsive, accurate service, Ai-Kiosk is just like a member of your team.

WHAT YOU'LL LOVE

- Faster service and more sales
- Accurate ordering
- Change menu in real time
- Bump screens available for your kitchen
- View orders on any device
- Analyse order history and trends and account for all sales
- Collect data to build your customer database and export an email or mailing list

WHAT CUSTOMERS LOVE

- Skip the queue
- Spend less time waiting
- Order confidently, without error
- Pay with ease (EFTPOS and one-tap system with receipting)
- Browse a photographic menu
- Interact with a novel, fun platform.

Ai-Kiosk has solved our line drop-off issues, it works great. It's like having a reserve staff member on instant call. Our customers enjoy using it, some prefer it to counter service. 5 stars! —Matt Wiley, Saltbean Café, Kingscliff

QUICK, EASY, EFFICIENT ORDERING

Sleek & elegant

With counter space at a premium, Ai-Kiosk has been specially designed to slot right in among your queueing customers.
